DECISION ON
PETITION

This is a response to the REQUEST TO REINSTATE AND ISSUE APPLICATION filed on July 9, 2002 and resubmitted February 24, 2003. The request asks that the abandonment, as set forth in the Notice of Abandonment of May 21, 2002, for failure to timely file new formal drawings as required in the Notice of Allowability be withdrawn. The request asks that the abandonment be withdrawn because the Notice of Allowability did not require the submission of new formal drawings.

DECISION

The instant request has been accepted as a petition to withdraw the holding of abandonment under the provisions of 37 CFR 1.181(no fee) - no abandonment-in-fact. A review of the evidence presented by the applicant and a review of the USPTO application file establishes that the Notice of Allowability mailed to applicant (a copy of the Notice of Allowability mailed to applicant is attached to the instant request) and the Notice of Allowability in the USPTO application file did not include a notice to submit new formal drawings, the box on the Notice of Allowability labeled "CORRECTED DRAWINGS must be submitted" was not filled in requiring applicant to submit formal drawings. Thus in view of the evidence it is considered that applicant's request has merit and any holding of abandonment is hereby withdrawn, and the application is returned to pending status.

The application shall be forwarded to Publications Branch for processing and issuance.

The Petition is **GRANTED**.
